

# INJURY DEATH RATES IN PEOPLE AGED 15-34 YEARS IN NEW SOUTH WALES BY CAUSE OF INJURY: 1998-2002

- Motor vehicle transport was the leading cause of injury death in people aged 15-24 years, followed by suicide.
- Suicide was the leading cause of injury death in people aged 25-34 years, followed by motor vehicle transport.
- Poisoning was the third leading cause of injury death for people aged 20-34 years.
- For interpersonal violence, poisoning and suicide, death rates increased as age increased.
